

SCHOOL BOARD GOALS

2009-2010

The MISSION of the Timberlane Regional School District is to engage all students in challenging and relevant learning opportunities, emphasizing high aspirations and personal growth.

1. Continue efforts to provide the best possible education for our students, while still trying to make that education as economical as possible to protect the interests of our taxpayers. Improvement strategies will be guided by "Strategic Planning", "NEASC", other program evaluations, data collection and best practices research.
2. Implement alternative educational strategies to meet the needs of all students.
3. Undertake preliminary studies to better understand space needs now and in the next few years to help determine possible facilities expansion plans for the district. Work with the four Timberlane communities to share information and housing expansion plans in each community to make sure we have a good handle on potential population increases that could impact our facilities.
4. Work to develop a "culture of safety" in which all members of the Timberlane community are invested in and responsible for safety, achieved through policy and procedure review, ongoing training, incident reporting / investigation, conducting practice drills, as well as working closely with our risk management company and community public safety partners, to ensure we have safe facilities, equipment, and work practices.
5. Work with the superintendent to provide the district's position on funding and other legislative issues to key representatives and officials in Concord.
6. Work to help improve standardized tests scores and to make sure all schools in the district are approved and accredited.
7. Provide board training for new and recently elected members with ongoing evaluations of committees.

Elizabeth Kosta, Chairman
Michael Mascola, Vice Chairman
Timberlane Regional School Board
Adopted May 7, 2009
